RE: USRS JV termination and cease of business operations.

Ms. Delong

As per the SBA rules for the above reference approved joint venture "USRS", current regulations provide that a joint venture can be awarded no more than three contracts over a two-year period. USRS was formed on the 11th day of January 2016 with U-SMC being 51% owner and RSRS being 49% owner. USRS received the first contract which was an IDIQ award from the Rock Island JMC in February 2016 USRS was no longer able to accept new contracts after February 2018. All work on the above referenced awarded IDIQ contract was completed as of September 27, 2019. Therefore, as of September 27th, 2019 all USRS work has been completed and we will cease all operations from this date forward and we will begin the transitional close out phase of USRS. USRS will no longer need use of license 09-29309-01 and we will request the license be transferred to Up-Side Management Company.

The process of dissolving USRS will take some time to complete. We must wait for government to pay all monies owed, ensure all invoices are paid before the final closure of USRS, and all closeout documents have been received. Once this is completed the final accounting of USRS can be completed and all final payments will be made. At that time all federal, and local entities can be notified, and the company officially dissolved. We expect to have USRS completely dissolved and process complete by the end of 2020 most likely in the third quarter of the calendar year. Please let me know if you have any questions or concerns about the process.

Respectfully,

Victor R. Letourneaut,
President Up-Side
Management Company

Re: **REQUEST FOR NAME CHANGE OF LICENSE TO UP-SIDE MANAGEMENT COMPANY, LLC; MATERIALS LICENSE NO. 09-29309-01, DOCKET NO. 030-38878**

Dear Director:

Up-Side Management Company, (U-SMC) is making a request to change the name of license 09-29309-01 from Up Side Radiological Service, LLC (USRS) to Up-side Management Company, LLC (U-SMC).

USRS was a joint-venture (JV) between Radiological Survey & Remedial Services, LLC (RSRS) and U-SMC. USRS has expended their capacity allowed by the JV and no longer requires a License. USRS is no longer accepting new work and has completed the Small Business Administration (SBA) requirements on contract limits.

USRS has ceased all new operations and is in the process of termination of the business entity.

USRS has no activities, waste or any other operations that require the use of NRC License 09-29309-01.

1. The name of the new licensed organization is Up-Side Management Company (U-SMC). The EIN of the firm is 26-0204619.
2. U-SMC is requesting to expedite this name change. U-SMC cannot engage in contract requests with the US Army-JMC until U-SMC has an approved Radioactive Material License to perform work.
3. U-SMC will retract the application for a new NRC license once this transfer is approved and the license is received with the name change.
4. No changes to locations where radioactive materials are used, nor to other equipment and facilities are necessary. U-SMC has accepted for use all USRS license procedures in their entirety.

CAGE Code: 6BQD4 | DUNS #: 809036101

5. Because the license is a service-providers license, there are no changes in the possession, location or storage of licensed materials. There are no materials currently under control of the license.
6. There are no changes in the organization, location, facilities, equipment, procedures, or personnel that would require a license amendment.
7. All surveillance items and records, including surveys, calibration records, inventories, and accountability and audit records are current as of the date of this letter.
8. There are no records pursuant to 10 CFR 30.35(g).
9. There are no facilities currently maintained under the license.
10. The transferee has agreed to abide by all commitments and representations previously made to the NRC by USRS. There are no open inspection items, and the transferee has accepted responsibility for any resulting enforcement actions for inspection items that are discovered during previous periods.
11. USRS has transferred control of the license, including any activities, and U-SMC is aware that there are no open inspection items; U-SMC has accepted responsibility for any possible enforcement actions resulting from items that occurred during USRS's utilization of the license.
12. U-SMC commits to abide by all constraints, conditions, requirements, representations, and commitments identified in the existing license.

If you have any additional questions, please don't hesitate to call Mr. Daryl DeLong at (415) 308-7027 or Mr. Victor Letourneaut at (904) 423-0989.
