January 15, 2020

John Miller, Radiation Safety Officer
International Isotopes, Inc.
4137 Commerce Circle
Idaho Falls, ID 83401

**SUBJECT: INTERNATIONAL ISOTOPES, INCORPORATED ISSUANCE OF AMENDED
SEALED SOURCE AND DEVICE REGISTRATION CERTIFICATE
NR-1235-S-107-S**

Dear Mr. Miller:

This is in response to the International Isotopes, Inc. letter dated September 24, 2019, requesting an amendment to Sealed Source and Device Registration Certificate NR-1235-D-107-S to add the new source model BM83-12. We have completed our review of your request, and a copy of the amended registration NR-1235-S-107-S is enclosed.

You must manufacture and distribute the product in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificate. As a general rule, you must request and obtain an amendment to the certificate before you make changes or modifications to the information submitted to obtain the certificate.

Please note that a certificate of registration, by itself, does not convey authorization for possession or distribution of radioactive sources or devices. A U.S. Nuclear Regulatory Commission (NRC) license is required for possession and distribution of radioactive materials, sources, or devices.

Please read over the registration certificate in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing if you decide to no longer manufacture, distribute, or offer service support for the product.

If you have any questions, please contact me at Tomas.Herrera@nrc.gov or at (301) 415-7138.

Sincerely,

/RA/

Tomas Herrera, Team Leader
Materials Safety and Tribal Liaison Branch
Division of Materials Safety, Security, State,
and Tribal Programs
Office of Nuclear Material Safety
and Safeguards

Enclosure:
Amended Registration NR-1235-S-107-S

J. Miller
