Subject: Audit documents needed for the Robinson SPRA Review - Fragility Analysis
Date: Monday, January 13, 2020 9:22:00 AM

Greetings Lee,

Based on the initial review of the H.B. Robinson Nuclear Plant, Unit 2, (RNP) seismic probabilistic risk assessment (SPRA) submittal (ADAMS Accession No. ML19346E204, non-public), please make the following information available in the electronic portal for staff audit (reference numbers from Section 7 of the submittal are included for clarity):

- Reference 61 - Station calculation for the Robinson SPRA Representative Fragilities
- Reference 68 - Station calculation for the Seismic Fragility of Pounding between the Class III Turbine Bldg. and the Reactor Aux. Bldg. by Nonlinear Analysis
- Reference 72 - Station calculation for the Robinson Nuclear Power Plant Relay Contact Chatter Analysis
- Reference 82 - Station calculation for the Seismic Fragility Evaluation Notebook (RNP-C/FLEX-0062)
- Reference 85 - Station calculation for the Seismic Fragility Evaluation of the Condensate Storage Tank (CST) by the Separation of Variables Method
- Reference 87 - Station calculation for the Response Analysis of the Robinson Unit 2 Intake Structure: Phase 2 SPRA Project

Please let me know when these documents are uploaded and if you have any questions regarding this request.

Thanks in advance for your help.

Respectfully,

Milton Valentín, PM
