**Subject:** [Non-DoD Source] China Lake Possession Only Permit MC #'s 613908; 602598; & 590418

Good afternoon. I am working on the final touches for the amendment to allow China Lake to go from the decommissioning arena back into permitted (possession only) space. There has been a lot of correspondence over the past several years. I am trying to close out (void) 2 actions (mail control numbers) when we issue the amended license.

With that being said, please confirm (email is fine) that you wish to delete the request dated February 2, 2018, Request for Technical Assistance in the Permitting of Depleted Uranium at China Lake" in addition to the two letters (dated January 21, 2016, and December 21, 2016) referenced in your August 2, 2019 amendment request. The supporting documentation contained in your February 2, 2018, letter will be retained to support your request dated August 2, 2019.

For clarity, we are voiding mail control numbers 590418 and 602598. We will be issuing the amendment under mail control 613908.

Please let me know if you have any further questions.

Shawn
