Michelle Beardsley, Health Physicist/State Regulation Review Coordinator
Agreement States Program Branch
Division of Materials Safety, Security, State, and Tribal Programs
Office of Nuclear Materials Safety and Safeguards
U.S. Nuclear Regulatory Commission

Dear Ms. Beardsley:

Enclosed is a copy of the final revisions to the Kansas Radiological Health Rules concerning RATS IDs 2007-2 and 2007-3. The final regulations are identified by line-in/line-out text (or similar identification) and correspond to the following equivalent amendments to NRC's regulations.

<u>Rats ID</u>	<u>Title</u>	<u>State Section</u>
• 2007-2	New Dosimetry Technology	K.A.R. 28-35-192g
• 2007-3	Requirements for Certain Generally Licensed Industrial Devices Containing Byproduct Material	K.A.R. 28-35-135c(v), 178i, 179a, 181m, 192g, 197b

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, with the exception of two points labeled in the enclosed crosswalk which are being addressed in proposed regulation currently under review at the Nuclear Regulatory Commission.

Revisions to Kansas regulations in response to NRC comments are addressed in the enclosed crosswalk. Please contact me if you have any questions at 785-296-1989 or james.uhlemeyer@ks.gov.

Sincerely,

James Uhlemeyer
Environmental Program Administrator
KDHE Radiation Control Program
