Hi Briana,

Attached is the spreadsheet NMFS requested. Please let us know if you need anything else.

Thanks,

Kristin

Kristin,

Oh wow! You guys are awesome!! Thank you. I responded to Audra before I saw this asking for more time. I guess that's okay, though. The sooner we provide this data to her, the better. Thank you again.

Briana

Hi Briana,

The site has already put together the spreadsheet as request by Audra, it just needs to be reviewed by others before sending. We will send it over to you by Wednesday at the latest.

Thanks,

Kristin

CAUTION - EXTERNAL EMAIL

Dear Briana,

This message responds to your email dated January 14, 2020. In that email, you stated the following:

- **To explore this option, the NRC asked whether NMFS could provide the NRC with further direction on what specific sea turtle data and information NMFS had intended to gather from the 2019 annual report.**
- **NMFS will further consider this question and whether the NRC could compile this information separately from the annual report to meet NMFS's current needs. (NMFS action item)**

This email serves to fulfill the NMFS action item identified above. NMFS has determined that FPL's spreadsheet entitled, "Copy of FPL St. Lucie Capture Summary 2019," provided via email to NMFS on January 16, 2020, will partially satisfy our information needs. In addition, we request that the information provided in the 2019 Capture Summary be supplemented with a spreadsheet that further breaks down the 2019 turtle takes by size. We have attached a spreadsheet format with headers that shows how we would like to see this information.

We request that the NRC/FPL populate the attached spreadsheet and provide the populated spreadsheet to Audra.Livergood@noaa.gov by January 31, 2020.

If you have any questions, please contact Audra Livergood by email or phone at (786) 351-2225.

Thank you,
Audra

Audra,

Thank you for speaking with me this morning. As we discussed, I am sending you this email to serve as an interim response to your January 10, 2020, request for additional information in support of initiating Endangered Species Act Section 7
