References: (1) R. C. DeYoung letter to W. G. Council dated December 3, 1982
(2) W. G. Council letter to R. C. Haynes dated February 22, 1983

Gentlemen:

Millstone Nuclear Power Station, Unit No. 3

Response to IE Bulletin No. 82-04

Deficiencies in Primary Containment Electrical Penetration Assemblies

In Reference (1), the NRC Staff requested Northeast Nuclear Energy Company (NNECO) to review information concerning penetration assemblies supplied to the Bunker Ramo Company.

NNECO, on behalf of Millstone Unit Nos. 1, 2 and 3, reviewed the subject bulletin for applicability to our facilities and responded using Reference (2). Millstone No. 3 was inadvertently not included in Reference (2).

In response to your Reference (1) request, NNECO determined that there are no containment electrical penetration assemblies manufactured by the Bunker Ramo Company in service or planned to be placed in service at Millstone Unit 3.
