MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263, License No. DPR-22

PRAIRIE ISLAND NUCLEAR GENERATING PLANT
Docket No. 50-282, License No. DPR-42
50-306, DPR-60

Submission of Revision 5 to the Monticello
and Prairie Island Nuclear Generating
Plant Security Force Training and
Qualification Plan.

In accordance with the provisions of 10CFR 50.54(P), and Regulatory Guide 10.1, distribution guidance, enclosed are five copies of a revision to the Security Force Training and Qualification Plan for the Monticello and Prairie Island Nuclear Generating Plants. This change is Revision 5 to the Plan and substitutes for pages 41, 42, 43 and 44 of the plan.

Through Revision 5, position task assignments identified in the Task and Duty Summary Matrix have been realigned to reflect present duty assignments. (See Attachment A to this letter for specific changes to Matrix.)

On June 30, 1982, Northern States Power Company employed six security administrators at each site. The objective of this action was to provide direct administrative guidance for existing plant security operations. The process of security task realignment places each crucial task at a working level where authority exists to ensure completion, while retaining the ability of each nuclear facility to respond to its individual need. Revision 5 then is necessitated by continued growth and refinement of the security programs at each nuclear site.

We conclude that this revision does not decrease the effectiveness of the Monticello and Prairie Island Nuclear Generating Plant Security Force Training and Qualification Plan. Since the revision involves Safeguards Information per 10CFR 73.21, the revision should not be made available for inspection and not be placed in the public document room.
