LEE, MELHOLT, AAMODT PETITION TO INTERVENE

Jane Lee, Bruce Melholt and Norman Aamodt petition the Commission for leave to intervene as a party in the proceeding concerning the repair of the steam generator tubes of Unit 1, a proposed amendment to the operating license. Our interest is the health and safety of ourselves, our families and the public in the vicinity of the Unit 1 plant. In order to accommodate our resources, we request that the hearing be held in Pennsylvania near the site of the plant. We find that Harrisburg is inconvenient in terms of additional traveling time and parking accommodations, nor does this location facilitate access of the public at greatest risk. Additionally, we request that all documents be served on all three individuals. Telephone messages need only to be provided to Norman Aamodt, who will, in turn, communicate with the other individuals.

Respectfully submitted,

Jane Lee
