RE: Docket 50-352, 50-353

Dear Sir:

I have a copy of your memorandum of June 21, 1983, describing the case load forecast pannel meetings of April 13-15, 1983. This is the first document that I have seen which I have observed relates only to Docket No. 50-352, and does not describe Unit Two at Limerick. Can you please advise me what the procedure is with respect to these combined dockets that would dictate a separation of Docket 50-353 from Docket 50-352 for this purpose. Have they been determined to be on different tracks, such that it is not appropriate for a case load forecast for 50-353? Is there any document in the NRC file which would support a differentiation between the two dockets?

Under the freedom of information act, I request copies of any documents relating to the decision to conduct the CFP meetings and tour only with regard to Docket No. 50-352, and any documents relating to the rationale or basis for such decision.

Sincerely,

Robert J. Sugarman
