

50-289

*Sandy, let's*

Commissioner Gilinsky:

The Commission may be aware of the enclosed information but we can no longer take anything for granted.

I hope you will take time to read the enclosed information because most of it is directly applicable to the restart of Unit I.

I would appreciate it if you would place this on the service list. This is the only copy I have sent. *except for Wall's Committee*

One side issue which I did not address in the enclosed memo is the request made by Richard Parks, former Bectel employee for Unit II cleanup. At the Middletown meeting Parks asked Arnold if anything had been done about the feed and bleed process in Unit II in the event there would be a mishap during the removal of the reactor head. I believe UCS tried to gain a hearing on this process. If Parks is asking and Arnold responds in anger, you may be sure it is important.

Thank you,

Jane Lee
