Docket No. 50-537  
HQ:S:83:261

JUL 22 1983

Dr. J. Nelson Grace, Director  
CRBR Program Office  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Dr. Grace:

SAMPLE OPERATING PROCEDURE OUTLINES FOR PROBABILISTIC RISK ASSESSMENT  
(PRA) TEAM REVIEW

The purpose of this letter is to transmit the current operating procedure outlines for the Clinch River Breeder Reactor Plant (CRBRP) heating, ventilating, and air conditioning system as an example of the procedure outlines that will be available for performance of the PRA.

This fulfills an information request the Nuclear Regulatory Commission made to us during the May 24, 1983, PRA meeting. One additional copy has been hand delivered to Mr. Al Spano.

If there are any questions, please call Mr. Al Meller (FTS 626-6355) of the CRBRP Project Office.

Sincerely,

  
Gordon L. Chipman, Jr.  
Acting Director, Office of  
Breeder Demonstration Projects  
Office of Nuclear Energy
