RE: Duke Power Company
Catawba Nuclear Station
Units 1 and 2
Docket Nos. 50-413 & 50-414

Gentlemen:

On review of "Applicants' Motion For Partial Summary Disposition Regarding Palmetto Alliance Contention 6", we have noticed certain errors which should be corrected.

At page 19, the first full paragraph at the top of the page should read:

"In light of the fact that Mr. McAfee's concern was resolved to his satisfaction, and that in any event all circuits are tested before operation to insure continuity, and that defective cables will be resolved before operation, Mr. McAfee failed to raise an issue of material fact and this allegation should be dismissed."

At page 33, the second sentence in the last paragraph on the page should read:

"With respect to piping, piping is cleaned and flushed at later intervals of installation to insure that it will meet the cleanliness condition for its intended use."
