Subject: NUREG-0737, Item II.D.1, Relief and Safety Valve Test
Requirements

Dear Sir:

Reference (b) requested that we provide you with additional information with regard to the subject NUREG-0737 item. By Reference (c), we indicated to you that due to the engineering activities associated with the upcoming refueling outage, we would be unable to submit the requested information until August 1, 1983.

The purpose of this letter is to inform you that due to the unexpected length of the 1983 refueling outage, our expected date for submittal of the requested information has been delayed. We now expect to submit this information to you no later than October 18, 1983.

We trust that the change in submittal date does not significantly impact your review schedule for this item. However, should you have any questions in this matter, please contact us.

Very truly yours,

VERMONT YANKEE NUCLEAR POWER CORPORATION
