SUBJECT: Beaver Valley Power Station - Unit No. 2
Docket No. 50-412
Required Action Based on Generic Implications of Salem ATWS
Events
Generic Letter 83-28

Gentlemen:

Duquesne Light Company (DLC) received your Generic Letter 83-28 dated July 8, 1983. In order to plan the response to the issues raised by this letter, information will be required from the Westinghouse Owners' Group concerning the generic solution to some of these issues. The need for this information, as well as the need to formulate a coordinated program within DLC, means that the schedule for action in response to your letter will not be available before November. Therefore, DLC will submit the schedule for Beaver Valley Power Station Unit 2 by November 30, 1983.

DUQUESNE LIGHT COMPANY
