Dear Mr. O'Reilly:

I. E. Bulletin 83-05, entitled "ASME Nuclear Code Pumps and Spare Parts Manufactured by the Hayward Tyler Pump Company," requested each licensee to determine whether any Hayward Tyler pumps or spare parts were used in safety related applications. In accordance with this request, Alabama Power Company has conducted a review of procurement documentation for both Farley Nuclear Plant Unit 1 and 2. As a result of this review it was determined that neither Hayward Tyler pumps nor pump spare parts were procured or utilized in either Unit 1 or 2 of Farley Nuclear Plant. In addition, Alabama Power Company currently does not have any plans to utilize any Hayward Tyler pumps or spare parts.

If you have any questions, please advise.

Yours very truly,

*F. L. Clayton, Jr.*
