Mr. Dennis M. Crutchfield, Chief

Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Crutchfield:

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Radiological Effluent Technical Specifications
(RETS) and Offsite Dose Calculation Manual (ODCM)

Reference: Letter dated January 28, 1983,
P.B. Fiedler to D.M. Crutchfield

The purpose of this letter is to provide you with an update to our schedule for submitting our final RETS and ODCM submittals as mentioned in my correspondence of January 28, 1983.

At the present time, our submittals are in the management review process. Due to the sensitive nature of RETS and ODCM on plant operations, this review will take longer than earlier expected. Therefore, our submittals will be transmitted to you by October 1, 1983 instead of September 1, 1983.

Should you have any questions concerning this matter, please contact Mr. Michael Laggart, Oyster Creek Licensing Manager, at (609) 971-4643.

Very truly yours,

Peter B. Fiedler
Vice President and Director
