Dear Mr. Giambusso:

MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263 License No. DPR-22

License Amendment Request Dated April 1, 1975

Attached are three signed originals and 37 conformed copies of a request for a change of Technical Specifications, Appendix A, of the Provisional Operating License for the Monticello Nuclear Generating Plant. This request is submitted in accordance with a letter dated January 7, 1975, from Mr. D L Ziemann, Chief, Operating Reactors Branch #2, Directorate of Licensing, USAEC, which recommended several revisions to the Limiting Conditions for Operation and Surveillance Requirements for the Standby Gas Treatment System.

Also included in this License Amendment Request are several changes to Section 6, Administrative Controls, which incorporate in the Technical Specifications the recent reorganization of the corporate structure of Northern States Power Company.

This License Amendment Request has been reviewed by the Monticello Operations Committee and the Monticello Safety Audit Committee. We have concluded that the proposed changes do not involve an unreviewed safety question.

Yours very truly,

L O Mayer, PE
