**To:** [Villar, Enrique:\(Exelon Nuclear\)](#)  
**Subject:** Accepted for Review - FitzPatrick License Amendment Request to Adopt TSTF-568, Revision 2, "Revise Applicability of BWR/4 TS 3.6.2.5 and TS 3.6.3.2" (EPID: L-2020-LLA-0008)  
**Date:** Friday, January 24, 2020 8:59:00 AM

---

Mr. Villar,

By letter dated January 23, 2020 (ADAMS Accession No. ML19269C622), Exelon submitted the subject request for FitzPatrick. The purpose of this e-mail is to provide the results of the U.S. Nuclear Regulatory Commission (NRC) staff's acceptance review of this request. The acceptance review was performed to determine if there is sufficient technical information in scope and depth to allow the NRC staff to complete its detailed technical review. The acceptance review is also intended to identify whether the application has any readily apparent information insufficiencies in its characterization of the regulatory requirements or the licensing basis of the plant.

The NRC staff has reviewed your application and concluded that it does provide technical information in sufficient detail to enable the NRC staff to complete its detailed technical review and make an independent assessment regarding the acceptability of the proposed change in terms of regulatory requirements and the protection of public health and safety and the environment. Given the lesser scope and depth of the acceptance review as compared to the detailed technical review, there may be instances in which issues that impact the NRC staff's ability to complete the detailed technical review are identified despite completion of an adequate acceptance review. If additional information is needed, you will be advised by separate correspondence.

The NRC staff is expected to spend 58 hours to complete the review by March 6, 2020.

If you have any questions, please contact me.

Samson Lee  
FitzPatrick Project Manager  
Plant Licensing Branch I  
Division of Operating Reactor Licensing
