Subject: NRC Issuance of Final Environmental Impact Statement for Peach Bottom Subsequent License Renewal
Date: Monday, January 27, 2020 1:30:00 PM

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
WASHINGTON, D.C. 20555-0001

Ms. Crocker:

The purpose of this email is to notify you that the U.S. Nuclear Regulatory Commission (NRC) has issued a final supplemental environmental impact statement (SEIS) in accordance with the National Environmental Policy Act (NEPA), for the proposed license renewal of Peach Bottom Atomic Power Station, Units 2 and 3 (Peach Bottom) in York County, Pennsylvania. The final SEIS is available online at: [ML20023A937](#).

During its NEPA review, the NRC determined that the proposed action would have no effect on federally listed species or critical habitats under the National Marine Fisheries Service's (NMFS) jurisdiction. In correspondence dated August 5, 2019, the NRC notified you of this finding. The NMFS provided no specific response. Because the Endangered Species Act (ESA) does not require Federal agencies to consult under Section 7 for "no effect" findings, the NRC considers its obligations under ESA Section 7(a)(2) to be fulfilled for the proposed action for federally listed species and critical habitats under the jurisdiction of the NMFS. Sections 3.8.1 and 4.8.1.1 and Appendix C.1 of the final SEIS address federally listed species and critical habitats.

If you have any questions about this email or the NRC's final SEIS, please reach out to me by phone at 301-415-1042 or email at briana.grange@nrc.gov.

Thank you,

Briana
