Dear Sir:

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Revision 1 to Change Request No. 49
Amendment Fee

Enclosed is a check for \$12,300 as requested by a letter from your staff dated August 31, 1978. A review of the proposed license amendment by my staff indicates the amendment should be classified as a Class III amendment instead of a Class IV. This determination is based on the fact that the amendment is addressing a single issue; the acceptability of the issue is clearly defined by an NRC position and will require a minimal effort by your staff to evaluate.

It is therefore requested that these considerations be taken into account in making the final evaluation of this license amendment.

Very truly yours,

Ivan R. Finfrock, Jr.
Vice President
