Dear Mr. Carr:

Under the federal Freedom of Information Act I hereby request records, letters, reports or portions thereof pertaining to the following:

-- Was duty officer Tim Norris notified that a steam bubble had formed in the Ginna nuclear reactor during the Jan. 25, 1982 accident. If so, how was he notified?

-- Was information about the steam bubble, including the fact of existence, transmitted from the Ginna plant over the hotline system to the NRC emergency operation center in Bethesda?

-- What was the general performance of the staff handling the accident from the emergency operations center?

-- Communications, if any, between the NRC and Gannett Newspaper Corp., Gannett-Rochester Newspapers, the Times-Union or the Democrat and Chronicle.

I look forward to your prompt response.

Sincerely,

Margaret E. Doris
