Dear Mr. Pallidino,

We are writing to you as concerned citizens living in Rockland County within the "ten-mile shadow" of Indian Point. The problem of evacuation from this county must be addressed.

We fear that if this issue is ignored that we may be headed for a terrible disaster.

Please consider the repercussions should such an accident occur. We await your decision.

Sincerely
Elaine + Steve Horowitz

Dear Mr. Pallidino,

We represent Rockland Families to
Close Indian Point. We are outraged
by the fact that the hearings regarding
the safety of the plants may not
not be dealing with the entire problem.

Evacuation is an essential issue
which needs immediate attention.

We appeal to you to do that
which is responsible and morally right.

Thank-you.
