Dear Mr. Keppler:

This is to revise the schedule for review and approval of
certain revised construction procedures at Braidwood Station.

In responding to item 2 of the Notice of Violation attached
to reference (b), we indicated that L. K. Comstock procedures 4.8.1
and 4.3.1 have been revised and implemented with interim approval by
site Construction and Quality Assurance personnel. Final approval
by Sargent & Lundy was expected by August 31. Those procedures are
still in the review process and approval is now expected within 30
days.

Please address further questions regarding this matter to
this office.

Very truly yours,

T. R. Tramm
Nuclear Licensing Administrator
