Unit 2 Inservice Inspection Summary Report

Attached for your review are four copies of the report, "Inservice Inspection-Examination Summary, Prairie Island Nuclear Generating Plant - Unit II, June 1 to June 9, 1982."

This report is being submitted in accordance with the Prairie Island ASME Code Section XI Inservice and Testing Program submitted to the Commission for review on February 1, 1978 (revised through Revision 7 dated December 23, 1981). As noted in that program, submittal of the attached summary is intended to satisfy the inspection reporting requirements contained in IWA-6220 of Section XI of the ASME Code. This report is also intended to satisfy the reporting requirements for steam generator tube inspection contained in Technical Specification 6.7.A.3.

Detailed inservice inspection reports are available at our General Office for review by the Region III Office of Inspection and Enforcement.
