

October 4, 1982  
DOCKETED

Docketing and Service Branch  
Secretary of the Commission  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

82 OCT 12 P2:23

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

Dear Sir/Ms.,

It has come to my attention, as representative for Ohio Citizens for Responsible Energy ("OCRE"), intervenor in the OL proceeding for the Perry Nuclear Power Plant in Ohio, that there is some confusion, possibly originating in your office, as to the docket numbers of the Perry reactors and those of the Shearon Harris plant in North Carolina. The correct docket numbers are as follows:

Perry 50-440 and 50-441

Shearon Harris 50-400 and 50-401

I have found materials in the Perry LPDR which pertained to Shearon Harris and which were marked, apparently by docketing personnel, with the number 50-441. I have also noticed that meetings have been announced, in the "Weekly Information Report" for the Commissioners, concerning Shearon Harris for which the docket numbers were identified as 50-440 and 50-441. I specifically refer to Enclosure P for the weeks ending August 19 and August 11, 1982.

I suspect that this mix-up may be causing prejudice to the intervenors in the Shearon Harris case, as they obviously are at a disadvantage if key documents concerning that plant are being sent to the Perry LPDR instead. It is also logical to suspect that documents pertaining to Perry are being sent to North Carolina, thereby placing us at a disadvantage. I'm sure that all the parties in both proceedings would appreciate it if this confusion were eliminated.

Sincerely,

*Susan L. Hiatt*
