Re: The Cleveland Electric Illuminating Co., et al.
(Perry Nuclear Power Plant, Units 1 and 2)
Docket Nos. 50-440, 50-441

Dear Ms. Hiatt:

Applicants' Response to Interrogatory #6-8 of Ohio Citizens for Responsible Energy Sixth Set of Interrogatories to Applicants states that the "borated solution mixes with the water injected by the HPCS in a ratio of one part SLCS injection for over fifty parts water." The last four words of the quoted portion of the Response should read, " . . . over thirty-five parts water." However, the conclusion of the Response -- that the addition of borated water will not significantly affect core spray flow or distribution -- remains unchanged.

Sincerely,

Robert L. Willmore
