Dear Ms. Doolittle:

Millstone Nuclear Power Station, Unit No. 3
Request For Meeting

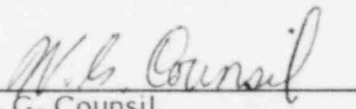

On October 29, 1982, an Operating License Application will be submitted for Millstone Unit No. 3. The documents for this submittal will be accompanied by a group of Licensing representatives to ensure proper delivery. At that time, we would like to hold a meeting with you to discuss preliminary information regarding the NRC OL Application review schedule and logistics.

You have indicated in discussions with our Licensing representative that you could discuss what was termed "Level D" schedules at the time of submittal. It is our understanding that once our application is docketed, you will be able to discuss the review schedule in more detail and give an account of what resources will be dedicated to the review. Once that occurs, we would like to hold another meeting with you and your upper management.

If you are unable to arrange this meeting requested above at the time of OL submittal, please contact Mr. J. M. Powers.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY
