G. CARL ANDOGNINI
VICE PRESIDENT
ELECTRIC OPERATIONS

Mr. Robert H. Engelken
Office of Inspection and Enforcement
Region V
US Nuclear Regulatory Commission
1450 Maria Lane, Suite 210
Walnut, Creek, CA 94596
DOCKET 50-^{528 529 530}297, 298, 299
PALO VERDE NUCLEAR GENERATING STATION

Dear Mr. Engelken:

Arizona Public Service Company intends to receive the shipment of nuclear fuel for Palo Verde Nuclear Generating Station (PVNGS) Unit No. 1 onsite approximately August 1, 1982, and to load fuel in Unit No. 1 in November, 1982.

As a result of a telephone conversation between Mr. Michael J. McEwan of my office and Mr. Stu Cohen of Inspection and Enforcement, we understand that the Emergency Notification System (ENS) is required in the following locations:

- A. Control Room
- B. NRC Resident Inspector's Office
- C. Shift Supervisor's Office
- D. Technical Support Center (TSC)
- E. Emergency Operations Facility (EOF)

While locations A and B must be operational at the time fuel is received, all locations must be operational prior to fuel loading.

In addition, we understand that the Health Physics Network (HPN) is required in:

- A. NRC Resident Inspector's Office
- B. Health Physics Office
- C. Technical Support Center (TSC)
- D. Emergency Operations Facility (EOF)

The phone in the Resident Inspector's Office must be operational at the time fuel is received and the other locations must be operational prior to fuel loading.

The telephone system at PVNGS is a privately owned system which interconnects with the Mountain Bell Telephone System.

Please contact Mr. Steven R. Frost, telephone no. (602) 271-3348, so that we may coordinate our efforts with yours in order to meet the scheduled fuel receipt and load dates.

Yours very truly,

G. Carl Andognini
Vice President
Electric Operations
