Docket No. 50-322 O.L.

SUFFOLK COUNTY SCHEDULE FOR CONSIDERATION
OF TORREY PINES REPORT

On November, 19, 1982, the Licensing Board requested Suffolk County to reconsider what dates in the County's view would be appropriate for submission of testimony concerning the Torrey Pines Report. The County previously provided a proposed schedule for consideration of the Torrey Pines Report. See Suffolk County Filing Concerning the Torrey Pines Technology Report, November 16, 1982. The County continues to believe that that schedule is appropriate, since it provides a reasonable opportunity for review of the Torrey Pines data by all parties and for further submissions, as appropriate.

At the Board's request, however, the County has reevaluated its proposal, considering the following new developments:

1. The Board's tentative decision to defer OQA examination of Mr. Hubbard and the Staff until the Staff OQA evaluation has been completed and made available to the parties. The County understands that the Staff's evaluation will probably not be

available until early January 1983, and that the evaluation may require some supplemental testimony from the Staff and perhaps other parties.

2. The Board's suggestion that Torrey Pines testimony be staggered, with LILCO (including Torrey Pines sponsors) filing on December 7 and other parties filing later. Tr. 14,695-96. This staggered filing may facilitate the Staff and County review of the Torrey Pines data, since it will provide the views of those entities (LILCO and Torrey Pines) most familiar with the data and should highlight particularly important points.

3. Based on prior time estimates by LILCO and the Staff, the examination of Mr. Hubbard on design and construction QA/QC should be completed by December 3, 1982,^{1/} permitting Mr. Hubbard thereafter to devote time to Torrey Pines review. If Mr. Hubbard's examination is not completed by December 3, the schedule proposed below will need to be adjusted.

4. Mr. Hubbard likely will be unavailable for Torrey Pines review during a portion of the week of December 6 due to the need for him to be present at a significant technical meeting of all parties in the Diablo Canyon proceeding on December 9, 1982 in San Francisco, California.

^{1/} In its October 29, 1982 "Schedule" filing, LILCO predicted "two days for all aspects of the examination of the County's witnesses." (p. 12, fn. 7). The County assumes that the scheduled discussion of outstanding contentions and the completion of the examination of the LILCO OQA panel will take place on November 30 and that Mr. Hubbard will be examined during the remainder of that week.

Based on the foregoing, the County suggests the following schedule:

December 7	Board and parties receive LILCO testimony on Torrey Pines Report.
December 15	County and Staff indicate whether either seeks depositions of LILCO and/or Torrey Pines personnel and, if so, designate the subjects and portions of Torrey Pines Report and/or prefiled testimony to be covered.
December 23	Last day for completion of depositions. Precise date(s) and locations for depositions to be arranged among parties.
December 31	Board and parties receive Staff and/or County testimony on Torrey Pines Report.
January 6	Designation whether depositions will be held of Staff and/or County witnesses and, if so, designate the subjects and portions of Torrey Pines Report and/or pre-filed testimony to be covered.
January 11-14	Depositions to be held of Staff and/or County witnesses. Precise date(s) and locations for depositions to be arranged among parties.
January 11	Motions to Strike, if any, to be received. (The County believes that motions to strike are unlikely since testimony is to focus solely on Torrey Pines Report and its relationship to QA/QC issues.)
January 17	Responses to Motions to Strike and submission of cross plans.

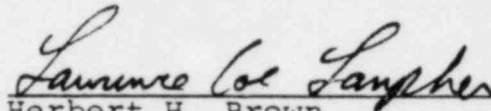

January 18

Rulings on Motions to Strike;
hearing commences on Torrey Pines
testimony.

Due to shortness of time, a coordinated filing with LILCO
and the Staff was not possible.

Respectfully submitted,

David J. Gilmartin
