SUBJECT: Limerick Generating station, Units 1 and 2
Submittal of Revisions to the Physical Security Plan

Dear Sir:

Attached are the revised security plan reference drawings that are associated with the October, 1993 Limerick Generating Station Unit 1 and 2 Physical Security Plan revision. This plan revision was submitted on December 8, 1993. This change was made to support the relocation of the main security guard station from the G.M. Leitch Administration building to the Technical Support Center building.

These changes do not decrease the effectiveness of the Physical Security Plan. The revisions to the plan are being submitted in accordance with the requirements of 10CFR50.54(p).

In accordance with 10CFR73.21, we request that the attached Security Plan Reference Drawings be withheld from public disclosure.

If you have any questions or require additional information, please do not hesitate to contact us.

Very truly yours,

LEW:dea
