Re: Georgia Power Company (Vogtle Electric Generating Plant, Units 1 and 2)
NRC Docket Nos. 50-424-OLA-3, 50-425-OLA-3; License Amendment for
Transfer to Southern Nuclear Operating Company

Gentlemen:

On April 12, 1994, the Licensing Board issued a Memorandum and Order (April 11 Status Conference Results) which requires, with one exception, that all discovery related to the alleged illegal transfer of authority be completed by April 29, 1994. The one exception is a dispute concerning certain questions Mr. Kohn asked Mr. Dahlberg during his deposition, which dispute is separately addressed in the Board's Order.

Yesterday, the parties concluded the depositions which have been requested to date, with two exceptions (aside from the dispute concerning Mr. Dahlberg): (1) Mr. Kohn was unable to complete his questioning of Mr. Hairston in the two hours which the parties had previously agreed upon, and (2) Mr. Kohn declined to interview Mr. Beckham at the time he had been scheduled to appear (April 15th at 9:00 a.m.) because Mr. Kohn was conducting

depositions in another matter that day.¹ Arrangements for the completion of these two interviews should be made promptly in order to meet the April 29, 1994, deadline.

In order to determine whether GPC will conduct any additional depositions prior to April 29, 1994, counsel for GPC needs to know whether Intervenor will call any witnesses on the alleged illegal license transfer issue other than Messrs. Hobby and Mosbaugh. Therefore, I propose that the parties exchange their lists of witnesses on this issue by facsimile on the evening of April 20th or the morning of April 21th, early enough so that each party will have an opportunity to assess the need for the telephonic status conference which is scheduled for April 21, 1994, at 2:00 p.m.

Thank you for your cooperation in this matter.

Very truly yours

John Lamberski
