There is no proprietary or confidential information in the submittal.

The PSDAR and DCE are complete. No additional information is planned to be submitted.

The cover letter should read that a copy is being shared with the state of New York.

Andrea – I understand this version does not include any sensitive/proprietary information.

Just to confirm, will HDI be sending a version that has information to withhold or is the intention that the PSDAR is entirely non-sensitive.

In case you didn't already catch it, the last sentence of the cover letter says that a copy is being provided to the state of Mass. (I assume this was intended to say state of NY?)

Subject: RE: Status Update: Entergy License Transfer Application

We've received the Entergy/Holtec license transfer application. Attached is a courtesy copy of the redacted version which was mailed by hardcopy today. While Entergy is also sending this version via EIE, there are currently network issues on the EIE site which is holding up the document to be made available to the public. For those that need to inform their external contacts/stakeholders – I will notify you as soon as the issue is resolved. EIE submissions are normally profiled and released via public ADAMS the same day.

Thanks,

~~~~~
