Dear Nuclear Regulatory Commission

I would like to add my voice  
the many who oppose the licensing  
nuclear plant near Berwick, Pa.

In the first place we seem to have  
enough "power" to sell electricity outside  
of our state now. So why add more!

Also until a satisfactory solution  
to what to do with the radioactive wastes  
is settled, it seems foolish to add to it.

Lastly I feel the whole nuclear area  
is much too costly and dangerous to  
human lives to continue adding more  
fuel & danger. It would be better to  
put our time & energies into solar  
& other forms of energy. Thank you.

Sincerely,  
Melisse F. Kurtz  
(Mrs. Gordon F. Kurtz)
