

Omaha Public Power District

1623 HARNEY • OMAHA, NEBRASKA 68102 • TELEPHONE 536-4010 AREA CODE 402

October 12, 1981

Mr. K. V. Seyfrit, Director
U. S. Nuclear Regulatory Commission
Office of Inspection and Enforcement
Region IV
611 Ryan Plaza Drive, Suite 1000
Arlington, Texas 76011

Reference: Docket No. 50-285
Inspection Report 81-16

Dear Mr. Seyfrit:

The referenced report identified two violations related to an inability to retrieve certain licensee records as required by the Fort Calhoun Station Quality Assurance (QA) procedures. In Omaha Public Power District's response to these violations, dated September 4, 1981, the District committed to implementing a Records Management System (RMS) for maintenance of all Fort Calhoun Station QA records, with the schedule for implementing the RMS to be provided later. This letter provides that schedule.

The District is presently conducting the final acceptance tests on the RMS. Necessary staffing and hardware for full implementation is authorized and the District expects to begin entering records into the system on a trial basis by November 15, 1981. The District will start entering Fort Calhoun Station QA records by January 1, 1982 at the latest. This effort will include current and past QA records. By June 30, 1982, the District will have all QA records coded and entered into the RMS. At that time, the District will be in full compliance with existing QA procedures.

Sincerely,

W. C. Jones
W. C. Jones
