PROPOSED CHANGES TO ENVIRONMENTAL TECHNICAL SPECIFICATIONS

Pursuant to 10 CFR 170.12 (c), Georgia Power Company has evaluated the attached proposed amendments to Operating Licenses DPR-57 and NPF-5 and has determined that:

- a) The proposed amendment does not require the evaluation of a new Safety Analysis Report or rewrite of the facility license;
- b) The proposed amendment does not contain several complex issues, does not involve ACRS review, and does not require an environmental impact statement;
- c) The proposed amendment does not involve a complex issue, an environmental issue or more than one safety issue;
- d) The proposed amendment does not involve a single environmental, safety, or other issue.
- e) The proposed amendment does involve an administrative issue, namely, deletion of requirements that have already been satisfied or are duplicated elsewhere.
- f) The proposed change is therefore a Class II amendment for one unit and a Class I amendment for the other unit.

4.2 Unusual or Important Events Requirements

Requirements

The licensee shall be alert to the occurrence of unusual or important events. Unusual or important events are those that cause potentially significant environmental impact, or that could be of public interest concerning environmental impact from plant operation. The following are examples: unusual or important bird impaction events on cooling tower structures or meteorological towers; on-site plant or animal disease outbreaks; unusual mortality of any species protected by the Endangered Species Act of 1973; fish kills near the HNP site; and significant violations of relevant permits and certifications.

Action

Should an unusual or important event occur, the licensee shall make a prompt report to the NRC in accordance with Section 5.7.2.

Bases

Prompt reporting to the NRC of unusual or important events, as described, is necessary for responsible and orderly regulation of the nation's system of nuclear power reactors. The information thus provided may be useful or necessary to others concerned with the same environmental
