ORNL/LANL Reviews

Dear Mr. Kuzmycz:

In reviewing the meeting minutes of the October 6, 1981 PSC/LANL/GAC meeting, I note that LANL has a Task #5 for reviewing the applicability of NUREG 0737 to Fort St. Vrain. We were under the impression that ORNL was doing the work and quite frankly we're surprised to see this task under the LANL contract.

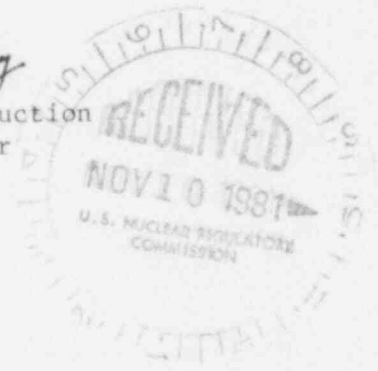

Can you please give us some indication of the differences of work between ORNL and LANL in the area of NUREG 0737. Hopefully the scope of the work is different for these two organizations as we do not feel it is in our best overall interest to have two different organizations looking at the same areas and reporting independently to the NRC. Resolution of major areas have been difficult enough without introducing yet another review.

We would appreciate some further information concerning these contracts.

Very Truly Yours,

Don W. Warembourg
