Re: RII:JPO
McGuire Nuclear Station
Docket Nos. 50-369 and 50-370

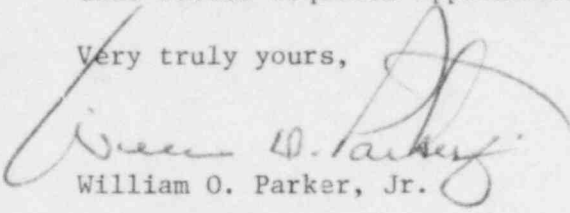

Dear Mr. O'Reilly:

In response to your August 18, 1981 letter which transmitted IE Bulletin 81-02, Supplement 1, we wish to advise that a review of the gate type motor-operated valves at McGuire Nuclear Station has been conducted.

It has been determined that no Westinghouse Electro-Mechanical Division (W-EMD) manufactured motor-operated gate valves have been installed, or are maintained as spares for installation, in safety related systems at the McGuire Nuclear Station.

This review required approximately 2 manhours to complete and report.

Very truly yours,

William O. Parker, Jr.

PBN/smh
