U-0328

L13(MASP)-81(11-12)-L

500 SOUTH 27TH STREET, DECATUR, ILLINOIS 62525

November 12, 1981

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Denton:

Reference: Letter from J. Miller to G. Wuller, "Comments  
on the Clinton Power Station Physical Security  
Plan," dated September 25, 1981.

Clinton Power Station Units 1 & 2  
Docket Nos. 50-461 and 50-462

Illinois Power Company hereby submits five (5) copies of Revision 2 of the Physical Security Plan with Safeguards Contingency Plan for the Clinton Power Station. Revision 2 is a reply to the referenced letter request for additional information. Responses to the specific comments are given by Attachment 1 to this letter. These responses may be correlated to the original comment through the page and section columns, which are duplicated even though the references may no longer be correct.

Replacement pages are included for the entire plan except Appendix A, which was sent as Revision 1 on September 9, 1981. The five copies of Figures 3-1 through 3-4, and 5-9 through 5-11, were transmitted to J. R. Miller in blue line form on October 28, 1981.

Due to the age of the original plan and the volume of NRC comments, Revision 2 is quite extensive. We have attempted to indicate revised paragraph with a line in the right hand margin.

Mr. Harold R. Denton

-2-

November 12, 1981

The security plans identify detailed security measures for the physical protection of a nuclear power station and the information is exempt from public disclosure in accordance with 10 CFR 2.790 (d)(1).

Respectfully submitted,

ILLINOIS POWER COMPANY

  
L. J. Koch  
Vice President
