DOCKET 50-255 - LICENSE DPR-20 -  
PALISADES PLANT - COMPLIANCE WITH  
ORDER MODIFYING LICENSE

The NRC Order issued November 9, 1979 required Consumers Power Company to inspect accessible valves and other controls for engineered safety systems at our Palisades Plant on a monthly basis. This is to inform you that the inspection was not conducted for the month of October 1981 because the plant was shut down for the entire month due to refueling.
