Reference: 1) Letter from D. G. Eisenhower to All Licensees
dated August 7, 1981, Same Subject

Dear Mr. Eisenhower:

This letter is in response to a request for additional information on NUREG-0737, Item II.K.3.44. Reference 1 requested a plant specific verification that the assumptions and initial conditions used in the General Electric BWR Owners' Group generic analysis for the subject item are representative of Cooper Nuclear Station.

NPPD has reviewed the analysis assumptions and initial conditions used for the generic analysis and have determined that they are indeed representative of Cooper Nuclear Station.

Should you have any further questions on this matter, please contact my office.

Sincerely,

Jay M. Pilant
