Attention: Mr. R. A. Clark, Chief

Gentlemen:

DOCKET NOS. 50-266 AND 50-301
STEAM GENERATOR TUBE SLEEVING
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

This is to provide information related to the application of Wisconsin Electric Power Company for license amendments to permit sleeving of the steam generator tubes at the Point Beach Nuclear Plant as requested by Mr. Emmitt Murphy of your Staff.

Attachment 1 to this letter contains information which is proprietary to the Westinghouse Electric Corporation. In conformance with the requirements of 10 CFR Section 2.790 of the Commission's regulations, we request this attachment be withheld from public disclosure. Included with our transmittal of the Point Beach Steam Generator Sleeving Report on September 28, 1981, was an application for withholding from public disclosure and an affidavit from Westinghouse in support of that application. The September 28 application and affidavit set forth the basis on which the information contained in the attachment to this letter should be withheld from public disclosure.

Very truly yours,
