OFFICE OF SECRETARY  
OF ENERGY & SERVICE  
BRANCH

Nov. 16, 1981

Hon. Victor Gilinsky  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Sir:

I am writing to express my opposition to Governor Thornburgh's proposal for reactivating the undamaged reactor (Unit 1) at Three Mile Island. Such a move ~~is~~ would be in blatant opposition to the interests of the citizens of Pennsylvania, West Virginia, Maryland, Delaware, New Jersey. No changes have been made since the accident at Three Mile Island to assure the safe operation on Unit 1. It is your duty to consider the safety of the citizens of Pennsylvania and the surrounding states and not allow this plant, which has not been cleaned up and must therefore be assumed to still be unsafe, to be reopened.

Sincerely,

Alice Bell
