RE: Facility License R-56 - Security Plan
Docket 50-83

Dear Mr. Miller:

The University of Florida Training Reactor implemented a Physical Security Plan in 1978 which essentially complies with the requirements of 10 CFR 70.73. However, due to circumstances beyond our control, we were unable to submit a full Security Plan by the specified date of May 18, 1980.

On July 9, 1980, we were informed of the required modifications to our plan. On July 14, 1980, we informed Mr. Kasun that we should be able to mail a new plan by July 31, 1980. We need to postpone our submittal for a few days to have the plan reflect our existing and planned conditions. We, therefore, respectfully request that it be acceptable to submit the UFTR Security Plan by August 8, 1980.

Please let us know if you require further information.

Sincerely,

Nils J. Diaz
