REMOVAL OF 3.25 LIMIT ON EXTENDING SURVEILLANCE INTERVALS
PROPOSED TECHNICAL SPECIFICATION PAGES

Gentlemen:

On February 16, 1990, Carolina Power & Light Company requested an amendment to the Technical Specifications for the Brunswick Steam Electric Plant, Units 1 & 2. The proposed change removes the 3.25 limit for extending surveillance intervals imposed by Technical Specification 4.0.2. Enclosure 1 provides the typed Technical Specification pages for your convenience in issuance of the proposed amendment request.
