Gentlemen:

SNRC-1657 (reference 1) requested expedited NRC review and approval of certain previously submitted license amendments and the withdrawal of others for the Shoreham Nuclear Power Station (SNPS). By this current correspondence, the Long Island Lighting Company (LILCO) hereby withdraws an additional two of its requests for amendment, specifically License Change Application #12 (reference 2), relating to Control Room Radiation Monitors setpoint change, and License Change Application #16, (reference 3), relating to the exercising of Control Rods. The NRC Staff need not undertake or continue any further review of these applications.

Additionally, Attachment 1 to reference (1) contained a list of submitted license amendment requests and identified pertinent information regarding each request. Subsequent to the submittal of reference (1), changes have occurred requiring revision to that list. LILCO is now providing Attachment 1 to this current correspondence to update the information previously submitted in reference (1).
