

OFFICE OF
THE PRESIDENT

April 17, 1990

Theodore S. Michaels, Senior Project Manager
Office of Nuclear Reactor Regulation
U.S.N.R.C.
Washington, D.C. 20555

Re: NRC Docket 50-228, Facility License R-112

This is to advise you that effective today, we have appointed J. Michael Pollock to be Acting Director of the Reed Reactor Facility. He replaces Larry Ruby, who has served as Director since September 1, 1987.

During academic year 1986-87 Michael Pollock also served as Acting Director. Since September 1, 1987, he has been serving as Associate Director of the Facility. He holds a Senior Reactor Operator's License.

We will soon begin a search for the next Director of the Facility.

Sincerely yours,

James L. Powell,
President
