Subject: Responses to Request for Additional Information -
FROSSTEY-2 Fuel Performance Code

Dear Sir:

The purpose of this letter is to provide our response to your request for additional information, as detailed in Reference (c), with regard to NRC Staff review of our revised fuel performance code, FROSSTEY-2, submitted for review by Reference (b).

In Reference (c), NRC provided an enclosure containing four (4) questions related to the use of FROSSTEY-2 in LOCA applications, and requested Vermont Yankee to submit responses to these questions within 30 days of receipt of Reference (c). Reference (c) was received by Vermont Yankee on March 26, 1990.

Following receipt of Reference (c), it was identified that additional time beyond the requested 30 days would be required to respond to two (2) of the four (4) questions. This was discussed in a telephone conversation between M.B. Fairtile (USNRC - Vermont Yankee Project Manager) and L.A. Tremblay (VYNPC) on Thursday, March 29, 1990. It was agreed in this conversation that Vermont Yankee would provide responses to two (2) questions within the 30 days, and would provide responses to the remaining two (2) questions as soon as possible thereafter.

Please find our responses to Questions 1 and 4 of Reference (c), attached as Enclosure B. It should be noted that some of the information requested in Question 1 regarding FROSSTEY-2 input data is considered proprietary by General Electric Company (GE). Although this information has been assembled, we are awaiting GE's approval prior to transmitting it to you. Additionally, we plan to submit responses to the remaining two (2) questions by May 17, 1990.

The enclosed information is considered proprietary by Yankee Atomic Electric Company. In accordance with 10CFR2.790(b)(1), an affidavit attesting to the proprietary nature of the enclosures is attached as Enclosure A.

We trust that this information will assist you in your effort to complete your review of our FROSSTEY-2 fuel performance code; however, if you have any further questions or require additional information, please contact this office.

Very truly yours,

VERMONT YANKEE NUCLEAR POWER CORPORATION

I, J. DeVincentis, depose and say that I am the Vice President of Yankee Atomic Electric Company, duly authorized to make this affidavit, and have reviewed or caused to have reviewed the information which is identified as proprietary. I am submitting this affidavit in accordance with the provisions of 10CFR2.790 of the Commission's regulations for withholding this information.

The information for which proprietary treatment is sought is contained in the enclosures to our letter, Vermont Yankee Nuclear Power Corporation to U.S. Nuclear Regulatory Commission, dated April 19, 1990.

Pursuant to the provisions of Paragraph (b) (4) of Section 2.790 of the Commission's regulations, the following is furnished for consideration by the Commission in determining whether the information sought to be withheld from public disclosure, included in the above referenced document, should be withheld.

1. The material contained in this transmittal was obtained at considerable expense to Yankee Atomic Electric Company and Vermont Yankee Nuclear Power Corporation and the release of which would seriously affect our competitive position.
2. The material contained in this transmittal is of the type customarily held in confidence and not customarily disclosed to the public.
3. This information is being transmitted to the Commission in confidence under the provisions of 10CFR2.790 with the understanding that it is to be received in confidence by the Commission.
4. This information is for Commission internal use only and should not be released to persons or organizations outside the Directorate of Regulation and the ACRS without prior approval of Yankee Atomic Electric Company. Should it become necessary to release this information to such persons as part of the review procedure, please contact Yankee Atomic Electric Company.

Further deponent sayeth not.
