Mr. Dennis Rathbun, Director
Office of Congressional Affairs
The United States Nuclear Regulatory
Commission
1717 H Street, N.W.
Washington, D.C. 20555

Dear Mr. Rathbun:

Enclosed for your review is a copy of a letter I have received from Mr. Shawn Culbertson of Friendswood, Texas. I would certainly appreciate your sending me any pertinent information that you might have in this regard.

Thank you for your assistance.

Sincerely,

Lloyd Bentsen

Dear Sen. Lloyd Benton,

I am an eighth grade student from Webster elem. school in Webster, Tenn. I am writing to find out what is being done about the South Texas Nuclear Project in Bay City. The nuclear wastes harmful to humans. They cause mutation, the wastes are carcinogenic, it also causes cancer and sometimes leads to death. The projects cause our society to spend billions of dollars on these harmful substances. The wastes produced by the projects are buried underground and can develop into harmful substances that could contaminate the communities water systems. Something must be done to these projects, so the harmful wastes cannot effect our community.

Thank You,
Phyllis Cullerton
