Subject: [External_Sender] Proposed timeline for St. Lucie Biological Opinion

Dear Briana,

As discussed on our call today, and based on a date of initiation of 1/22/20, NMFS proposes to:

- Submit a draft Biological Opinion (BO) for internal review by 6/30/20
- Complete the signed BO by 12/31/20

That allows 5 months to draft the BO and work through any questions/issues that may come up, and 6 months for internal review and signature.

Please respond to this email and let us know if the proposed timeline is amenable to NRC.

Thank you,

Audra
